GOAL

Canada currently lacks a national registry for tracking children receiving proton or photon radiotherapy. The Proton/Photon Consortium Registry (PPCR) is an international effort to standardize data collection and analyze treatment outcomes in pediatric patients.

STUDY METHOD

PROJECT TIMELINE

US proton centres enrolled patients from 2012 onward. The PPCR launched patient enrollment in **Toronto** in 2023. In 2024, **Vancouver** joined as the second Canadian site.

IMPACT

[Redacted text block]

RESULTS

n = 170

[Redacted results text block]

🚩 The study opened in **Vancouver** last year, with **35 participants** registered (As of January 20th, 2026).

🕒 The study is in the process of opening sites in **Calgary, Edmonton, and Montreal**.
